WHAT YOU'RE VOTING ON

Improved accountability, transparency and reporting before any levy change.

A package of reforms, introduced together, to increase focus on and investment in:

- accountability of levy investments to grassfed levy payers
- industry representation and capacity building
- strategic biosecurity investments
- dedicated funding for integrity systems
- sustainable funding for the National Residue Survey

Only if the reforms are introduced in full by **1 July 2027** would the levy rise by **\$1.00 to \$6.00 per transaction** by 1 July 2028.
